

1. How many players, teams, clubs, stadiums, and matches are present in the dataset?

Skills: COUNT(), COUNT(DISTINCT)

2. What are the different tournament stages, and how many matches were played in each stage?

Skills: GROUP BY

3. What is the distribution of players by position?

Insight: Which position has the most players?

4. Which countries contributed the most players?

Insight: Talent distribution by nationality.

5. Which clubs contributed the most players to the World Cup?

Insight: Clubs producing the most international players.

Level 2: Player Performance (6–12)

6. Who are the Top 10 goal scorers?

Skills: SUM(), GROUP BY

7. Who are the Top 10 assist providers?

8. Which players have the highest average player rating?

Skills: AVG()

9. Which players received the most Player of the Match awards?

10. Which players played the most minutes?

11. Which players have the highest tournament rating?

12. Which players have the best goal conversion rate?

Formula:

Goals ÷ Shots on Target

Level 3: Team Analysis (13–18)

13. Which teams scored the most goals?

14. Which teams conceded the fewest goals?

15. Which teams have the highest average player rating?

16. Which teams completed the most successful passes?

17. Which teams created the most attacking chances?

Use:

- Goals
- Assists
- Key Passes

18. Which teams committed the most fouls and received the most cards?

Level 4: Advanced Performance Analysis (19–24)

19. Which players outperformed their Expected Goals (xG)?

Formula:

Goals – xG

20. Which players created more assists than expected?

Formula:

Assists – xA

21. Which players are the best passers?

Metrics:

- Pass Accuracy
- Successful Passes

22. Which defenders contributed the most defensively?

Formula:

Tackles

+ Interceptions

+ Blocks

+ Clearances

23. Which midfielders created the most opportunities?

Use:

- Key Passes
- xA
- Assists

24. Which goalkeepers had the best performance?

Use:

- Saves
- Save Percentage
- Goals Conceded
- Clean Sheets

Level 5: Window Functions (25–28)

25. Rank players within each team based on total goals.

Skills:

- RANK()

26. Find the highest-rated player from each country.

Skills:

- ROW_NUMBER()

27. Rank teams by average performance score.

Skills:

- DENSE_RANK()

28. Find the Top 3 players from each position based on tournament rating.

- Skills: PARTITION BY

Level 6: Portfolio Insights (29–30)

These are the kinds of questions that impress recruiters.

29. Build a "World Cup Best XI"

Choose the best:

- Goalkeeper
- 4 Defenders
- 3 Midfielders
- 3 Forwards

using:

- Tournament Rating
- Performance Score
- Player Rating
- Skills: CTEs
- Window Functions
- Ranking

30. Create a custom Player Performance Index (PPI)

Design your own KPI, for example:

PPI =

30% Player Rating

+ 25% Performance Score

+ 20% Goals

+ 10% Assists

+ 10% Pass Accuracy

+ 5% Defensive Contribution

Then rank all players by this score.

Skills:

- Mathematical expressions
- CTEs
- Window Functions
- ROUND()
- Ranking
